Lori Woodruff  
Combs Gas  
2777 Allen Parkway Suite 1185  
Houston, Texas 77019

February 3, 2022

Dear Sirs/Madams:

This letter serves as a "non-objection notice" to the following transfer (Report ID: HTRAN\_2022\_00002):

Number	Date Submitted	From	To	Allowance Type	Application (if applicable)	Quantity Transferred (MTEVe)	Offset Amount (MTEVe)
1	01/25/2022	Combs Gas	A-Gas	Consumption		571,428.6	28,571.4
1	01/25/2022	Combs Gas	A-Gas	Consumption		571,428.6	28,571.4

Pursuant to this notification, the transferor and transferee may proceed with the transfer. We have included a balance statement for your respective companies that reflects this transfer. The offset amount indicated above and the quantity transferred have been subtracted from the transferor's allowance balance.

The U.S. Environmental Protection Agency issues this "non-objection notice" based on a review of the information the Agency maintains on the transferor and transferee. The balance statement reflects information available to the EPA primarily from your company's reported production and/or consumption of HFCs, as well as other information available to the Agency. While it represents EPA's current understanding of your company's allowance balance, it should not be interpreted as a final balance determination. If EPA obtains information later that indicates that the balance recorded on this statement is incorrect, the Agency will correct it and, where appropriate, take enforcement action. EPA will notify your company of any corrections made.

Production, consumption, and application-specific allowances may only be expended during the twelve-month control period (January 1, 2022 to December 31, 2022) for which they were allocated. Unexpended allowances may not be carried over from one control period to another. If you have questions concerning this notification, your transactions, or your balance statement, please contact EPA at [HFCAllocation@epa.gov](mailto:HFCAllocation@epa.gov).

Sincerely,

Luke Hall-Jordan, Chief  
Stratospheric Program Implementation Branch

The offset amount indicated above and the quantity transferred have been subtracted from the transferor's allowance balance.

The U.S. Environmental Protection Agency issues this "non-objection notice" based on a review of the information the Agency maintains on the transferor and transferee. The balance statement reflects information available to the EPA primarily from your company's reported production and/or consumption of HFCs, as well as other information available to the Agency. While it represents EPA's current understanding of your company's allowance balance, it should not be interpreted as a final balance determination. If EPA obtains information later that indicates that the balance recorded on this statement is incorrect, the Agency will correct it and, where appropriate, take enforcement action. EPA will notify your company of any corrections made.

Production, consumption, and application-specific allowances may only be expended during the twelve-month control period (January 1, 2022 to December 31, 2022) for which they were allocated. Unexpended allowances may not be carried over from one control period to another. If you have questions concerning this notification, your transactions, or your balance statement, please contact EPA at [HFCAallocation@epa.gov](mailto:HFCAallocation@epa.gov).

Sincerely,

Luke Hall-Jordan, Chief  
Stratospheric Program Implementation Branch

This letter serves as a "non-objection notice" to the following transfer (Report ID: HTRAN\_2022\_00019):

Number	Date Submitted	From	To	Allowance Type	Application (if applicable)	Quantity Transferred (MTEVe)	Offset Amount (MTEVe)
1	06/28/2022	Honeywell International	Mexichem Fluor DBA Koura	Production		1,420,529.8	71,026.5
2	06/28/2022	Honeywell International	Mexichem Fluor DBA Koura	Consumption		1,420,529.8	71,026.5

Pursuant to this notification, the transferor and transferee may proceed with the transfer. We have included a balance statement for your respective companies that reflects this transfer. The offset amount indicated above and the quantity transferred have been subtracted from the transferor's allowance balance.

The U.S. Environmental Protection Agency issues this "non-objection notice" based on a review of the information the Agency maintains on the transferor and transferee. The balance statement reflects information available to the EPA primarily from your company's reported production and/or consumption of HFCs, as well as other information available to the Agency. While it represents EPA's current understanding of your company's allowance balance, it should not be interpreted as a final balance determination. If EPA obtains information later that indicates that the balance recorded on this statement is incorrect, the Agency will correct it and, where appropriate, take enforcement action. EPA will notify your company of any corrections made.

Production, consumption, and application-specific allowances may only be expended during the twelve-month control period (January 1, 2022 to December 31, 2022) for which they were allocated. Unexpended allowances may not be carried over from one control period to another. If you have questions concerning this notification, your transactions, or your balance statement, please contact EPA at [HFCAallocation@epa.gov](mailto:HFCAallocation@epa.gov).

Sincerely,

Luke Hall-Jordan, Chief  
Stratospheric Program Implementation Branch

Dear Sirs/Madams:

This letter serves as a "non-objection notice" to the following transfer (Report ID: HTRAN\_2022\_00031):

Number	Date Submitted	From	To	Allowance Type	Application (if applicable)	Quantity Transferred (MTEVe)	Offset Amount (MTEVe)
1	10/05/2022	Daikin America	Arkema	Consumption		229,631.0	11,481.6

Pursuant to this notification, the transferor and transferee may proceed with the transfer. We have included a balance statement for your respective companies that reflects this transfer. The offset amount indicated above and the quantity transferred have been subtracted from the transferor's allowance balance.

The U.S. Environmental Protection Agency issues this "non-objection notice" based on a review of the information the Agency maintains on the transferor and transferee. The balance statement reflects information available to the EPA primarily from your company's reported production and/or consumption of HFCs, as well as other information available to the Agency. While it represents EPA's current understanding of your company's allowance balance, it should not be interpreted as a final balance determination. If EPA obtains information later that indicates that the balance recorded on this statement is incorrect, the Agency will correct it and, where appropriate, take enforcement action. EPA will notify your company of any corrections made.

Production, consumption, and application-specific allowances may only be expended during the twelve-month control period (January 1, 2022 to December 31, 2022) for which they were allocated. Unexpended allowances may not be carried over from one control period to another. If you have questions concerning this notification, your transactions, or your balance statement, please contact EPA at [HFCAllocation@epa.gov](mailto:HFCAllocation@epa.gov).

Sincerely,

Luke Hall-Jordan, Chief

The U.S. Environmental Protection Agency issues this "non-objection notice" based on a review of the information the Agency maintains on the transferor and transferee. The balance statement reflects information available to the EPA primarily from your company's reported production and/or consumption of HFCs, as well as other information available to the Agency. While it represents EPA's current understanding of your company's allowance balance, it should not be interpreted as a final balance determination. If EPA obtains information later that indicates that the balance recorded on this statement is incorrect, the Agency will correct it and, where appropriate, take enforcement action. EPA will notify your company of any corrections made.

Production, consumption, and application-specific allowances may only be expended during the twelve-month control period (January 1, 2022 to December 31, 2022) for which they were allocated. Unexpended allowances may not be carried over from one control period to another. If you have questions concerning this notification, your transactions, or your balance statement, please contact EPA at [HFCAallocation@epa.gov](mailto:HFCAallocation@epa.gov).

Sincerely,

Luke Hall-Jordan, Chief  
Stratospheric Program Implementation Branch

December 20, 2022

Dear Sirs/Madams:

This letter serves as a "non-objection notice" to the following transfer (Report ID: HTRAN\_2022\_00039):

Number	Date Submitted	From	To	Allowance Type	Application (if applicable)	Quantity Transferred (MTEVe)	Offset Amount (MTEVe)
1	12/19/2022	Linde	Electronic Fluorocarbons	Consumption		12,761.7	638.1

Pursuant to this notification, the transferor and transferee may proceed with the transfer. We have included a balance statement for your respective companies that reflects this transfer. The offset amount indicated above and the quantity transferred have been subtracted from the transferor's allowance balance.

The U.S. Environmental Protection Agency issues this "non-objection notice" based on a review of the information the Agency maintains on the transferor and transferee. The balance statement reflects information available to the EPA primarily from your company's reported production and/or consumption of HFCs, as well as other information available to the Agency. While it represents EPA's current understanding of your company's allowance balance, it should not be interpreted as a final balance determination. If EPA obtains information later that indicates that the balance recorded on this statement is incorrect, the Agency will correct it and, where appropriate, take enforcement action. EPA will notify your company of any corrections made.

Production, consumption, and application-specific allowances may only be expended during the twelve-month control period (January 1, 2022 to December 31, 2022) for which they were allocated. Unexpended allowances may not be carried over from one control period to another. If you have questions concerning this notification, your transactions, or your balance statement, please contact EPA at [HFCAllocation@epa.gov](mailto:HFCAllocation@epa.gov).

Fireside Holdings Inc (DBA American Refrigerants)  
2053 58th Avenue Cir E  
Bradenton, Florida 34203

February 14, 2023

Dear Sirs/Madams:

This letter serves as a "non-objection notice" to the following transfer (Report ID: HTRAN\_2023\_00005):

Number	Date Submitted	From	To	Allowance Type	Application (if applicable)	Quantity Transferred (MTEVe)	Offset Amount (MTEVe)
1	02/05/2023	Combs Gas	Fireside Holdings Inc (DBA American Refrigerants)	Consumption		619	31

Pursuant to this notification, the transferor and transferee may proceed with the transfer. We have included a balance statement for your respective companies that reflects this transfer. The offset amount indicated above and the quantity transferred have been subtracted from the transferor's allowance balance.

The U.S. Environmental Protection Agency issues this "non-objection notice" based on a review of the information the Agency maintains on the transferor and transferee. The balance statement reflects information available to the EPA primarily from your company's reported production and/or consumption of HFCs, as well as other information available to the Agency. While it represents EPA's current understanding of your company's allowance balance, it should not be interpreted as a final balance determination. If EPA obtains information later that indicates that the balance recorded on this statement is incorrect, the Agency will correct it and, where appropriate, take enforcement action. EPA will notify your company of any corrections made.

Production, consumption, and application-specific allowances may only be expended during the twelve-month control period (January 1, 2023 to December 31, 2023) for which they were allocated. Unexpended allowances may not be carried over from one control period to another. If you have questions concerning this notification, your transactions, or your balance statement, please contact EPA at [HFCAllocation@epa.gov](mailto:HFCAllocation@epa.gov).

Sincerely,

Luke Hall-Jordan, Chief  
Stratospheric Program Implementation Branch

Albert Steele  
Solvay Fluorides LLC  
3737 Buffalo Speedway  
Houston, Texas 77098

April 6, 2023

Dear Sirs/Madams:

This letter serves as a "non-objection notice" to the following transfer (Report ID: HTRAN\_2023\_00024):

Number	Date Submitted	From	To	Allowance Type	Application (if applicable)	Quantity Transferred (MTEVe)	Offset Amount (MTEVe)
1	04/04/2023	Solvay Fluorides LLC	Chemours	Consumption		1,049,961.0	52,498.1

Pursuant to this notification, the transferor and transferee may proceed with the transfer. We have included a balance statement for your respective companies that reflects this transfer. The offset amount indicated above and the quantity transferred have been subtracted from the transferor's allowance balance.

The U.S. Environmental Protection Agency issues this "non-objection notice" based on a review of the information the Agency maintains on the transferor and transferee. The balance statement reflects information available to the EPA primarily from your company's reported production and/or consumption of HFCs, as well as other information available to the Agency. While it represents EPA's current understanding of your company's allowance balance, it should not be interpreted as a final balance determination. If EPA obtains information later that indicates that the balance recorded on this statement is incorrect, the Agency will correct it and, where appropriate, take enforcement action. EPA will notify your company of any corrections made.

Production, consumption, and application-specific allowances may only be expended during the twelve-month control period (January 1, 2023 to December 31, 2023) for which they were allocated. Unexpended allowances may not be carried over from one control period to another. If you have questions concerning this notification, your transactions, or your balance statement, please contact EPA at [HFCAllocation@epa.gov](mailto:HFCAllocation@epa.gov).

Sincerely,

Luke Hall-Jordan, Chief  
Stratospheric Program Implementation Branch
